HANDICAP CALCULATIONS

- Minimum of 10 rounds to calculate a handicap.
- LSMGA uses 35.5 strokes as the average for nine holes on the Livonia Courses.
- 10 to 19 rounds, average the lowest 50% of rounds; then subtract 35.5. If odd number of rounds, round down; Example: if 19 rounds, use lowest 9 scores.
- 20 and above, average the lowest 10 of the last 20 rounds played; then subtract 35.5.
- Two play-in round scores used in recalculating handicap for qualifiers in match play rounds, if lower than original season handicap.
